PROJECTS

AEC HEALTHCARE

https://github.com/Haidar-Danish/AEC-Healthcare
AEC Healthcare is a hospital administration system. With the help of four team members, a dynamic web application was created applying Java, Servlet, MySQL, JSP, and HTML/CSS. There are admin, user, and doctor modules.

TOLL'S MART

This e-commerce project offers three types of logins: admin, seller, and customer. Any merchant is welcome to register and list their products for sale on this website. The project has four team members and is developed on the MERN stack.

PORTFOLIO
